This is an abstract. The length of the abstract should be 200 words or less. It should briefly state the purpose, method and results of the paper. Authors who are submitting “Letter to the Editor” and “Corrigendum” need not to write an abstract. All types of papers need keywords as shown below.

Keywords: *keyword1; keyword2; keyword3; keyword4; keyword5; keyword6; keyword7; keyword8; keyword9; keyword10*

Literature citations should be gathered at the end of the text[1–5]. These correspond to each type of reference: journals[1,2], books[3], reports[4], and proceedings[5]. The footnote goes like this^a.

The following is an example of equations.

$$i\hbar \frac{\partial}{\partial t} \Psi(r, t) = \left[-\frac{\hbar^2}{2m} \nabla^2 + V(r) \right] \Psi(r, t) \quad (1)$$

$$\begin{aligned} f(x) &= x^4 e^x - 5x^2 e^{-x} + e^{-2x} \\ &\quad + \int e^{2t-x} (-5t^2 + 8t - 4) dt \end{aligned} \quad (2)$$
